Introduction

Alternate sources of energy and energy conservation measures:

LED bulbs, tubes etc. are used in the college to save electricity. Power supply should be kept uninterrupted inverter backup has been installed. UPS systems have been installed for office, examination department, principal's room, IQAC in the college. The institute is trying to provide non-conventional energy sources in addition to conventional energy sources.

While buying any electrical item for college, emphasis is placed on buying star certified items like ceiling fan, wall fan, air conditioner, lab equipment, fridge etc.

Energy efficient monitors are used in computer labs and workplaces to save electricity.

There are places where electricity is not consumed and notifications about low electricity consumption are displayed.

Management of the various types of degradable and non-degradable waste:

The college has different dustbins for different types of waste, such as biodegradable, recyclable and non-degradable. Green, blue and red bins have been provided across the campus for the collection of solid waste generated at different sources in the college. Organic waste is disposed off in compost pits and processed and reused as manure for the plants and trees inside the campus. Plastic usage is prohibited on campus so as to create a plastic-free zone.

For liquid waste management, water transport systems are regularly inspected. Leaks in pipes, taps, valves are repaired immediately.

To ensure clean and safe portable water supply, the college has installed a water filter with a capacity of 100Lit/hr. Leaking water from water tanks is used for plants.

E-West

The PRES has centralized scheme to collect the e-waste from various institution. Furthermore, the pre-stakes the necessary action on the collected e-waste.

Water conservation

Our college is located in a very remote hilly area. Sawarde surrounding areas receive heavy rains during monsoons. That is why this area is called as red zone by the Maharashtra govt. The water falling on the roof of the college is stored in the bore well. This water is fed to the plants or even used for daily use.

Green campus initiatives

Tree plantation is organized in the college from time to time. On the occasion of the birth anniversary and death anniversary of well known personalities. Tree plantation is done with the cooperation of the organization and the villagers. Saplings are provided to each college from the office of the institute. Trees are also planted in adopted villages for special winter camps through the College's National Service Scheme.

Disabled-friendly, barrier free environment :

A ramp has been provided for the disabled students taking admission in the college. A counseling room has been set up for such students. Wheel chairs have been provided for these students. Toilets with commodes are provided for disabled students and staff.

Energy conservation Policy

Introduction:

It is our duty to convey the importance of energy conservation to the future generation to prevent the depletion of available energy resources. Various practices are implemented through the organization with the aim of maximizing utilization of limited resources and eliminating wastage.

Objectives:

1. To promote the principles of reduce, reuse and recycle.
2. To create awareness among stakeholders about greenhouse emissions due to uncontrolled use of energy.
3. Efficient use of available resources without wastage.
4. Use and conserve renewable energy sources like water, sunlight to achieve energy independence.
5. Developing strategies to meet the increasing energy demand of our time.

Methods:

1. To provide awareness about energy consumption by organizing various programs like awareness classes, observation days, activities etc.
2. Reducing consumption of electricity, plastic and water on campus.
3. Effective management of sewage plants.
4. Replacing conventional lighting with LED bulbs and tubes.
5. Water conservation through rain water harvesting and open well recharge System.
6. Use of energy efficient appliances on campus.
7. To reduce energy consumption and wastage, buildings are provided with maximum ventilation.

Waste Management Policy

Introduction

Arts & Science College, Sawarde was established in 2001 under Sahyadri Shikshan Sanstha. The college is located in a rural and hilly area of Ratnagiri district of Maharashtra and is catering to the educational needs of boys and girls in the surrounding 40 villages. The college has a green campus of around 5 acres equipped with state-of-the-art facilities for teaching and learning.

The college is permanently affiliated to University of Mumbai and the institution is committed to transform lives and serve society through excellence in teaching, learning, cultural enrichment and outreach programs. The institution provides sustainable and holistic waste management, which is essential to reduce environmental footprint and provide a safe and healthy

environment for teaching and non-teaching staff and students. The institution ensures that all waste on campus is disposed of responsibly using proper waste segregation systems and converted into eco-friendly products if possible.

Policy Statement

The college applies "solid, liquid and e-waste principle" in delivery of its waste management system. College implements waste handling procedures. The solid/liquid waste generated in the campus is managed and handled in accordance with the compliance criteria and procedures laid down in the Grampanchayat Solid Waste (Management Handling) Rules, 1999, published as per the notification of the Government of India, Ministry of Environment and Forests to minimize, reuse and recycle waste products. . No. S.O.783 (E) dated the 27th September, 1999 in the Gazette of India, Part II, Sub-Section (ii). It is a legal requirement for all those generating, depositing or disposing of any type of hazardous/radioactive/chemical waste to comply with various regulations under national and international environmental protection laws.

Policy Objectives

- Ensuring that waste management is carried out in accordance with all waste legislative requirements, including monitoring and planning for future legislative changes and mitigating their impact.
- To provide clearly defined roles and work to facilitate the reduction, reuse and recycling of waste disposed of in a cost-effective manner.
- Supporting environmental awareness to increase and motivate waste reduction, reuse and recycling.
- To ensure safe handling and storage of waste in the college campus.
- Maintaining environment with minimal plastic usage.
- To promote a holistic approach to waste management in the campus.

Organization and Management

- Organic farming.
- Non-biodegradable waste is further segregated and disposed through Grampanchayat garbage vehicle on a routine basis.

Liquid Waste Management

Responsibilities and organizational arrangements for the liquid waste management policy lie with various personnel in the college.

- Principal
- HOD's
- One faculty member from each department
- Student representatives.

Waste Management Methods

Solid Waste Management

- Every day all academic buildings and other premises in the campus are cleaned by the maintenance department.
- Two bin systems is adopted for waste collection one biodegradable and one non-biodegradable.
- Biodegradable waste is converted into vermin composting and used in toilets etc., discharged as sewage in proper drainage facility and accumulation is avoided.
- E-waste management
- Optimum utilization of all electronic equipment through repair.
- Unused and irreparable waste is disposed of by sending it to Sahyadri Shikshan Sanstha.

WATER CONSERVATION POLICY

Introduction

The primary objective of the water conservation policy is to provide safe and clean water throughout the campus. The college is implementing water efficient practices. Student and staff engagement play a key role in our water sustainability strategies.

The college is committed to more equitable use of water and is working towards making the sector water sustainable. This has been achieved by using water efficient fixtures, rain water harvesting methods.

Water is stored in a storage tank by Saipan through Gram Panchayat Sawarde to supply water to the entire campus area. The college is equipped with overhead tanks for storage and uniform distribution of water in the campus area. The college immediately repairs leaks and performs necessary periodic maintenance to prevent water wastage.

1. Rain Water Harvesting:

The college is situated in a high rainfall area but after the end of the monsoon some measures are mainly taken to overcome water scarcity and ensure permanent water supply. The building has a roof. Water is collected from the roof. Rainwater directly moves into the soil and it is connected to borewell through underground pipes. Water harvesting has benefited a lot and helped in overcoming water scarcity.

Date:

2. Maintenance of water bodies and distribution system in college campus:

Water bodies are regularly maintained to ensure sustainable, consistent, safe and adequate water supply to the campus. Water is distributed through a well-equipped system of pipes. Drinking water facility is provided through filter. Another set of distribution pipes is used for all other uses. Using good quality plumbing fixtures reduces water wastage to a great extent. Scheduled inspections of machinery are carried out regularly in the campus. All water sources and distribution systems are maintained.

Green Campus Policy

Introduction:

The institution has a green campus where environmental friendly practices go hand in hand with academics. The efforts are taken to promote sustainable and eco-friendly campus through various initiatives.

Objectives:

- To make minimum use of plastic in the campus.
- To implement environment friendly activities inside and outside of the college campus.
- To sensitize the staff and students on environmental issues.
- To enrich the greenery in the campus.
- To maintain eco-friendly ambience.

Measures:

- Enriching the greenery in the campus.
- Minimum plastic use in campus is maintained and monitored by the staff.
- College organizes awareness programs for green campus.
- Ban of Plastic placards to be displayed in the campus.
- Environment friendly extension activities to be organized.
- Rain water harvesting system should be maintained.
- Green and Environmental audits to be conducted.
- Proper separation disposal and recycling methods are to be adopted for different waste.

Green Campus initiatives in the campus

1. Restricted entry of automobiles:

Vehicles should be parked at parking area to reduce noise and air pollution. Honking of horns should be prohibited in the college premises and speed limit should be restricted to 500m/h.

2. Minimum use of Plastic:

The use of plastic in campus is minimized by creating awareness among staff and students through orientation by authorities and display boards in the campus. Use of polythene bags less than 80 micron thickness is prohibited in the campus.

3. Landscaping with trees and plants:

The campus development committee is constituted to look after the development, maintenance and monitoring of the campus. An adequate financial support is provided for proper care and maintenance of greenery in the campus. Landscaping of the college is worth seeing and reflects aesthetic sense. Utmost care is taken to develop and maintain landscaping .

POLICY ON PLASTIC BAN

Context:

Currently, one of the largest environmental issues is plastic pollution. Plastic manufacturing and consumption have increased dramatically as a result of the convenience and short-term advantages of plastic and plastic products. Over the past century, excessive plastic consumption has outpaced effective trash management, turning it into a global problem. Plastic is a danger that affects not only our health and wellbeing but also the ecosystem. The goal of this policy is to lesson and eventually get rid of plastic pollution. The policy requires institutional action to proactively support the campaign to prohibit the use of single-use plastics.

Principles and Strategies related to Ban of Single Use

Due to the plastic policy, the college has banned single-use plastics in its campus. The college should strictly follow the plastic ban policy. Let's work together to create a cleaner, greener world free of hazardous plastics through campaigns and awareness programs. All stakeholders involved under the policy must agree to:

Ban on single-use plastics in campus buildings, hostels and canteens.

- Organize workshops on and off campus to raise awareness about the negative effects of plastic.
- Refuse to bring any non-biodegradable items onto campus.
- Waste generated should be segregated at source and segregated waste should be sent to authorize waste treatment centers, disposal facilities.
- All events organized in the campus should strictly follow the plastic ban.

Policy on Divyangian

Introduction:

The college is well aware of its role in providing necessary guidance and counseling to the differently abled students (Divyangian). The college follows certain practices to support the Divyangian students. It provides barrier-free environment where people with disabilities can move safely and freely and use the facilities within the built environment. Buildings /places /transportation systems are made barrier free.

Objective:

To understand the various rights, regulations, scholarships provisions, facilities, opportunities given by the legislation to the person with disabilities (equal opportunities, protection of rights and full participation) and amended rules for persons with disabilities and their implementation.

- To ensure implementation of all legislation with respect to persons with disabilities.
- To create comfortable regulatory mechanism for effective delivery of service to disable students and staff in college.
- To create inclusive culture to avoid discrimination, exploitation and exclusion of disable students and staff from all spheres of work and education.
- Respect for human diversity.
- Respect for the legal capacity of persons with disabilities.

Date:

Policies and Measures:

- The college will ensure admission to as many differently-able students as possible.
- The college will provide fee concessions and waiver, assistance during examination if required and other needs pertaining to differently-able persons.
- Assess their educational needs, determine and facilitate assistive devices that can be procured for them.
- Facilitate scholarship facility.

Infrastructural facilities:

- College provides disabled friendly infrastructure like ramp
- College provides disabled friendly washrooms.

Built environment with ramps:

According to the persons with disabilities act 2016, discrimination against disabilities is strictly prohibited. Arts, and Science College Sawarde intend to provide comprehensive and inclusive teaching and learning environment to differently-able students and employees thus ramp is built in the campus.

Admission policy for person with disabilities:

According to the guidelines provided by the University of Mumbai admission seats are reserved in all programs for persons with disabilities.

Exam Policy:

The college shall make suitable arrangements for Divyangian students to take the examination and the examination department takes special care and follows the rules and regulation issued by University of Mumbai in giving extra time or as per need allotting scribes for examination.
